Best free plans in AI video & voice, with receipts

32 tools with a free plan, free trial, free credit or no-subscription option, each linked to the official page it came from and the time we checked it. The live, sourced version is at tierradar.com/tools/free.

How to read this. "Credits" mean something different at every vendor, so don't compare them across tools. "One-time" credits don't refill. Details are the vendor's own wording, shortened. Where a free plan was confirmed on a help-center page instead of the pricing page, both sources are listed.
